Adam Tommasi is the Owner & Founder of ClubHouse Hosting which was founded in early 2004.

What Is Your Name And Title ?

Adam Tommasi, Owner / Founder

Please Give Us a Brief History Of Your Company

ClubHouse Hosting was founded in early 2004. In a saturated market, where there are way too many bad hosts out there, I wanted to become the exception. I wanted to put a little faith back in the hosting industry and let people know that there are still hosts out there that can be trusted. ClubHouse Hosting was born.

What Are Your Target Markets ?

Our target market is personal sites and small eCommerce sites. We specialize in helping people get their site on the internet for the first time.

What Are Your Strengths ?

Excellent customer service and our ability to adapt to our customers needs.

What Makes You Different To Other Hosting Companies ?

Our main strength has to be the personal touch we provide all of our customers. We will go out of our way to customize each of our customers hosting experience to them.

Our mission statement says it all:

"We will become the hosting provider of choice, by putting our customers first"

How Do You See The Web Hosting Market Changing In The Upcoming Few Years ?

It's a saturated market, that's plain to see. It seems as though anybody can get a \$15/month reseller account and pass themselves off as a "real" hosting provider. These "companies" oversell their resources and eventually disappear, leaving their customers high and dry. My hope is that this will change as customers become more savvy, and realize that shopping on price alone will eventually lead to bad experiences.

Where Will Your Company Be In 5 Years ?

We will be right here, we're not going anywhere. We will grow to meet our customers needs as they arise and as technology changes and we will continue to research ways to make web hosting easier for our customers.

Why Should Somebody Choose Your Company Over Another Host ?

We strive to be the best in all we do. We're a small hosting company and we like it that way. It allows us to give our customers personal attention, something that the 'big boys' cannot.

Would You Like To Add Any Other Comments ?

We're a host people can trust, plain and simple.
