Alex Melen is the Founder of T35 Hosting which has been open for business for almost a decade,

What Is Your Name And Title ?

Alex Melen, Founder

Please Give Us a Brief History Of Your Company

T35 Hosting has been open for business for almost a decade, and since then has established itself as a leader in the hosting industry. While we might be best known for our free hosting services (now ranked as the #4 free hosting service in the world), our paid hosting offers unbeatable value and outstanding support.

What Are Your Target Markets ?

With an extremely diversified support staff, we pride ourselves in being able to accommodate and support any type of customer. We work one-on-one with our customers and make sure all of their needs are fulfilled.

What Are Your Strengths ?

As our customers often tell us, we are the best at what we do. Specifically, being able to provide an outstanding hosting service at competitive pricing. More importantly, we also go above and beyond when it comes to customer service. As any of our customers will tell you, the caliber of our support is unmatched.

What Makes You Different To Other Hosting Companies ?

Having pioneered the hosting industry, we have the expertise that most other hosts do not. We have been around during all the ups and downs and have learned valuable lessons from them. We have been around for almost a decade, and unlike most other hosts, plan to be around for at least a few more.

How Do You See The Web Hosting Market Changing In The Upcoming Few Years ?

Although the last few years have seen an increase in competition, I believe the next few will see a decrease. As the consumer becomes more and more educated in the world of hosting, they will learn how to filter out the real hosting services from the over-night sites run by home DSL connections.

Where Will Your Company Be In 5 Years ?

We plan to be in the same place we were 5 years ago, and 5 years before that --- Offering outstanding hosting solutions and as our slogan says, helping our customers succeed.

Why Should Somebody Choose Your Company Over Another Host ?

Our staff has over 8 years of average web hosting experience --- and at our competitive prices, you are definitely getting the best services for your money.

Would You Like To Add Any Other Comments ?

Although many company's claim many things, we would like to prove it to you --- So stop by our forum and see how our other customers are doing and ask them about the hosting. Better yet, you can instant message our support team or even myself during most parts of the day.
